

301 Stainless Steel Coil

Ningbo Qihong Stainless Steel Co., Ltd. is specialized in 301 stainless steel coils, Our team has been engaged in stainless steel industry for more than 10 years. We can provide our clients with competitive price and best services. We also focus on the after-sale service of our customers, we hope offer a best experience for our clients. 301 stainless steel coil is a hardenable austenitic stainless steel with high hardness and strength which widely be used in industries.

301 stainless steel coil is a hardenable austenitic stainless steel with high strength, moderate corrosion resistance and good formability. It is the most widely used of all austenitic stainless steel coils, and its properties make it an excellent choice for a variety of applications, making it a popular choice in many industries. Compared with 304 stainless steel coil, 301 stainless steel coil has less Cr and Ni content, higher tensile strength and hardness during cold working, non-magnetic, but magnetic after cold working. In addition to 301 stainless steel coils, we also supply various models such as 304 stainless steel coils, 316L stainless steel coils, 310S stainless steel coils, 400 stainless steel coils, 420 stainless steel coils, 421 stainless steel coils, 430 stainless steel coils, etc.

Product Parameter (Specification)

Material	301
Surface	NO.1, NO.4, 2D, 2B, BA, 6K, 8K, Mirror, etc
Thickness	0.02mm-4.0mm/Customized
Length	200-3500 mm or customized
Width	2-1500 mm or customized
Standard	ASTM, JIS, GB, AISI, DIN, BS, EN
Certifications	SGS ISO9001

Packing	Industry standard packaging or according to client's requirement
Brand	TISCO, POSCO, BAO STEEL, TSINGSHAN, QIYI STEEL etc .
Payment terms	L/C, T/T
Delivery time	Up to order quantity, contact us to know

Product Feature And Application

Due to its high strength and good corrosion resistance, high-quality 301 stainless steel coils have been widely used in industrial springs, conveyor belts, connectors, component conversion, aircraft parts, electrical parts, precision stampings, hardware, gaskets, precision Parts, mobile phone accessories, bellows, seals, etching parts and other products.
